INVESTMENT OPPORTUNITY: GALISTEO & CERRILLOS ORE DEPOSITS

High-Grade Silver-Gold Lode & REE-Silver Pegmatite | Santa Fe County, New Mexico | 100% Unencumbered Asset

1. EXECUTIVE INVESTMENT OVERVIEW

A multi-spectral satellite (Sentinel-2/Landsat-8) and 3D subsurface gravity inversion survey has identified two highly mineralized target bodies within 16 miles of Zorro Ranch in Santa Fe County, NM. The primary target, **MIN_CERRILLOS_05 (Cerrillos Silver King #1)**, is a near-surface, high-grade polymetallic lode situated on open federal BLM public land requiring only a **$180 filing fee** to secure exclusive unpatented lode mining claims. A secondary asset, **MIN_REE_02 (Creston Pegmatite)**, represents a large-scale REE-silver discovery on NM State Trust land.
